PROFESSIONAL SUMMARY

Public-sector procurement, financial management, and operations professional with experience supporting municipal departments, capital project portfolios, contract administration, budget development, vendor oversight, and cross-functional programs. Skilled in government purchasing compliance, forecasting, cost controls, SAP/ERP reporting, supplier performance, and operational risk. Experienced partnering with Finance, Legal, department leadership, and external vendors to support reliable public services.

CORE QUALIFICATIONS

Municipal Operations & Procurement • Operating Budgets & Capital Project Financials • Contract Administration • Vendor & Supplier Management • Regulatory Compliance & Audit Readiness • Forecasting & Variance Analysis • Risk & Continuity Planning • Process Improvement • SAP/ERP, Excel, SQL & Tableau

PROFESSIONAL EXPERIENCE

Financial Project Analyst – Capital Projects | **08/2026–Present (Contract)** | Insight Global | Dominion Energy assignment, Richmond, VA

- Provide financial oversight and cost analysis for an approximately $90 million capital project portfolio, monitoring budgets, actual expenditures, commitments, forecasts, and overall project cost performance.
- Track and analyze capital expenditures across SAP Work Breakdown Structures (WBS) and cost centers, identifying budget variances, spending trends, and potential financial risks.
- Collaborate with project managers to review project financial performance, validate expenditure forecasts, and support long-term capital planning and cost management decisions.
- Develop and maintain financial models, dashboards, and management reports to improve visibility into project expenditures, forecast accuracy, and overall portfolio performance.

Senior Procurement & Contracts Analyst | **07/2025–07/2026** | City of Richmond, Fire & Emergency Services | Richmond, VA

- Coordinated procurement and contract activities for a municipal public-safety department in a purchasing environment of approximately $3M–$15M+ annually, depending on operational needs.
- Managed solicitations (IFBs, RFPs, RFQs), sourcing, vendor negotiations, contract renewals, purchase orders, and changes in accordance with purchasing requirements.
- Partnered with Fire Administration, Logistics, Finance, Legal, and City Procurement to address departmental needs, contract issues, expenditures, and compliance risks.
- Participated in operating budget preparation by reviewing departmental requests and coordinating with other city departments.
- Reviewed purchasing documentation, invoices, and contract changes to support financial controls, accuracy, and audit readiness; identified savings through competitive quotes and alternative sourcing.

Program Delivery Specialist | **03/2022–05/2025** | Pinnacle Group | Richmond, VA

- Supported a $158M annual managed-services program involving approximately 85 suppliers; contributed to a 76% reduction in time-to-fill through supplier management and process improvements.
- Worked with client managers and business leaders on budgets, staffing needs, supplier performance, contractual expectations, and operational issues.
- Monitored supplier performance and service-level compliance; identified delivery risks, coordinated corrective actions, and followed up on results.
- Analyzed spend, contractor rates, purchase orders, invoices, and cost-code discrepancies using SAP Fieldglass, Beeline, SQL, and Tableau.

Senior Project Coordinator | 03/2021–12/2021 (Contract) | LPL Financial | Richmond, VA

- Coordinated planning, logistics, performance tracking, and reporting for client-facing initiatives.
- Worked with project management to align schedules, budgets, and project activities.

Program Manager | 11/2018–02/2021 | NEOFECT | Richmond, VA

- Managed client service issues, financial arrangements, and coordination with clinical and business partners.
- Helped improve Salesforce reporting and worked with leadership on business-development and payer-related initiatives.

Program Manager | 08/2013–04/2018 | Northern Virginia Center for Arthritis | Fairfax, VA

- Forecasted medication and clinical supply needs based on utilization and treatment schedules, with attention to cost and waste.
- Coordinated purchasing-related planning, insurance requirements, and billing issues to support continuity of patient care.
